ABOUT ME

Driven Front-End Engineer with a strong passion for creating visually appealing and user-friendly websites. Experienced in HTML, CSS, JavaScript, ReactJS, and Asp.NET core. Committed to staying up-to-date with the latest technologies and trends in web development. Seeking a challenging position where I can utilize my skills and contribute to the success of a dynamic organization.

WORK EXPERIENCE

26 SEP 2024 – CURRENT Dubai, United Arab Emirates

Frontend Engineer HRango

Developed and Maintained Frontend for HRango (ASP.NET MVC): Designed and implemented user-friendly interfaces for HRango, an HR SaaS application, using MVC Razor views and custom JavaScript to provide seamless user experiences.

Collaborated on MVC-Based Features: Worked with backend developers to integrate APIs and synchronize data flow in MVC architecture, ensuring consistent performance and functionality across the HRango platform.

Enhanced HR-Specific Features: Designed intuitive UIs for HR-related modules, such as attendance tracking, holiday management, and support ticketing, leveraging MVC's capabilities for robust form handling and data display.

Optimized Frontend Performance in MVC Views: Minimized load times and enhanced application speed by implementing lazy loading, image optimization, and efficient JavaScript code, resulting in improved performance for HRango users.

Built Modular Razor Views for Reusability: Developed modular views in MVC to enable reuse of UI components across the application, reducing code redundancy and improving development efficiency.

Led UI Overhaul Initiatives for Enhanced Usability: Played a key role in redesigning the HRango UI with a focus on modern aesthetics and improved user interaction, ensuring the design aligned with HRango's core HR functionalities.

26 JUL 2024 – CURRENT Multan, Pakistan

Frontend Engineer Top Edge Technologies

- I play a pivotal role in developing and enhancing their AI-integrated HRM software solution.
- My responsibilities include designing and implementing intuitive user interfaces that ensuring an exceptional user experience.
- Through my contributions, I am committed to advancing the usability and performance of our HRM software, empowering organizations to streamline their human resources processes effectively.
- I collaborate closely with cross-functional teams to translate design mockups and user requirements into responsive, interactive features that meet both aesthetic and functional criteria.

JUN 2024 – JUL 2024 Islamabad, Pakistan

Frontend Engineer Octaloop Technologies

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

HRango

HRango is a SaaS (Software as a Service) product registered in Dubai, designed to provide comprehensive HR-related services. It serves as an HR management platform that offers a variety of tools to support HR functions like attendance tracking, holiday management, employee management, and support ticketing, among others. HRango is based on **ASP.NET MVC architecture**, and I have been involved in handling its frontend development at **Top Edge Technologies**.
